

Alligator District Race Perfect-N Description

THIS RACE MAY RUN DIFFERENTLY THAN YOUR PACK'S

RACE TYPE

The Perfect-N race format will be used by Alligator District race officials. Each age group (rank) will only race against each other, however, the heats will be all mixed together. Each rank's winner will not be known until the end of the racing. A championship heat will then be created to determine overall champion, second, and third place among all ranks. The perfect-N style assigns points for 1st, 2nd, 3rd in a heat and bases winners on common opponents making for a more efficient race. The car with the fewest points is the winner of each bracket. Your Pack may choose double elimination, however, most Packs the size of our District race of up to 90 cars use Perfect-N.

In short – you and your youth will not know each den's results until the end of den races.

Thank you,

Alligator District Race Officials
